EXCAVATOR 'SPECIAL' LRE

LONG REACH

OVERVIEW

“Load more, make more”

The new Van Tunen - 336/340 with a 18m reach - is built to take on your up-close and far-out excavating tasks. Where the real power comes in is through the integrated engine, hydraulic, and work tool systems. You can move tons of material - literally - every hour, on the hour, all day long with a great deal of speed, precision, and efficiency.

PORTFOLIO

Heavy Duty High Wide (HDHW) Undercarriage is designed for High-Impact and High-Travel Applications, Like Mining and Heavy Construction. This model is equipped with 850mm tracked shoes.

ATTACHMENTS

BUCKET

- HD GP bucket
- Skeleton bucket
- Ditch cleaning bucket
- Size: ± 1.2 ~ 2.0m^3

GRAB

- Closed (environmental) or regular
- Size: ± 1.2 ~ 2.6m^3

ORANGE PEEL GRAB

- Closed (environmental) or regular
- Size: ± 1.2 ~ 1.5m^3

EXTENDER (HYDRAULIC)

Please note that we can extend the reach of the excavator for your project needs. Same as for all our attachments, we build or customize all these items at our Van Tunen yard. Please ask us for the posibilities.

FACTS & FIGURES

GENERAL INFORMATION

INFO	SPECS
Engine power	228KW | 304hp
Boom length	± 10.6m
Stick length	± 7.1m
Lifting capacity full reach	± 5.5tons
Fuel consumption	± 25-32 ltr/hr
Production	Contact us

SPECIALTIES

- Technical Support Van Tunen
- Safety check valves on boom & stick cilinders
- Medium pressure function (rotator)
- High Presure hydraulic function hamer / shear
- GPS / Survey on request

SHIPPING INFORMATION

TOOL	SPECS
Shipping height	± 3.5m
Shipping Length	± 15.3m
Shipping width (850mm tracks)	± 3.8m
Ground clearance	± 0.72m
Ground pressure	± 4.9 N/cm²
Max. weight	± 43.6 tons

DIMENSIONS

Shipping Module dimensions and weights. All dimensions are approximate.

	340F LRE
Boom Option	**LRE Boom 10.6 m**
Stick Option	**LRE Stick 7.1 m**
1 Shipping Height*	3560 mm
2 Shipping Length	15 280 mm
3 Tail Swing Radius	3500 mm
4 Length to Center of Rollers	4040 mm
5 Track Length	5020 mm
6 Ground Clearance*	720 mm
Ground Clearance**	690 mm
7 Track Gauge	
Expanded	
Retracted	2920 mm
8 Transport Width (expanded)	
600 mm Shoes	3670 mm
700 mm Shoes	3670 mm
750 mm Shoes	
850 mm Shoes	3770 mm

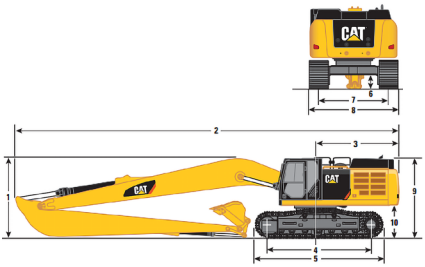
Transport Width (retracted)	
600 mm Shoes	
750 mm Shoes	
900 mm Shoes	
9 Cab Height	3390 mm
Cab Height with Top Guard	3600 mm
10 Counterweight Clearance**	1450 mm
Bucket Type	GD
Bucket Capacity	0.93 m³
Bucket Tip Radius	1573 mm

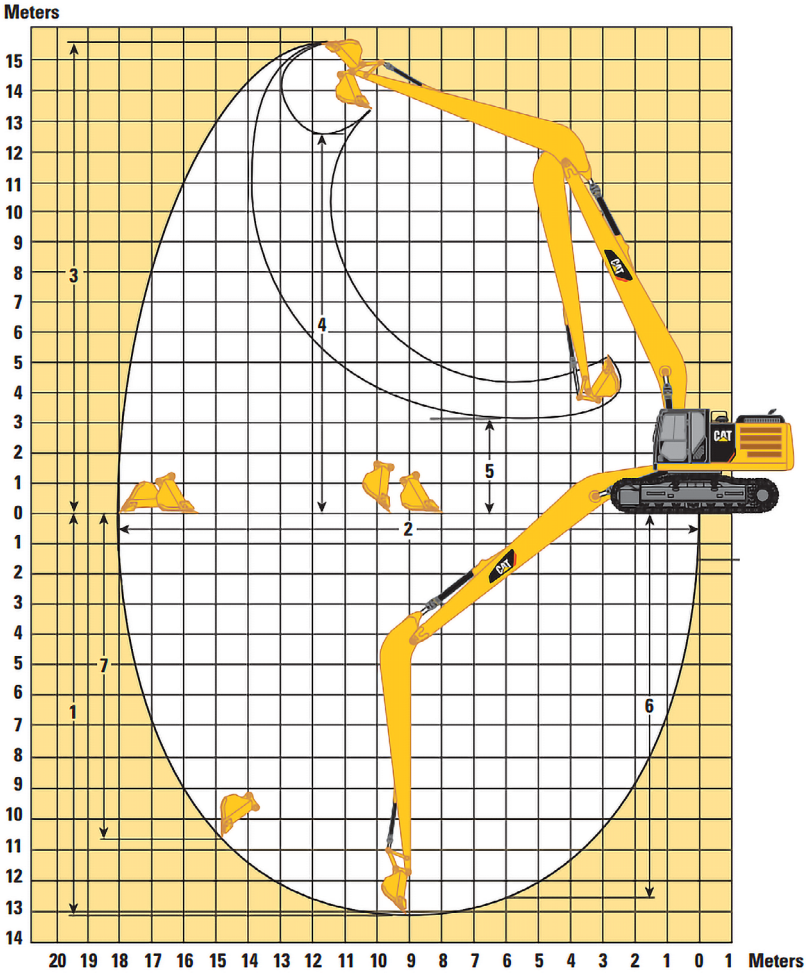
*Including shoe lug height.
**Without shoe lug height.
Dimensions may vary depending on bucket selection.



EXCAVATOR SPECIFICATIONS

WORKING RANGES

All dimensions are approximate.



SAFETY FIRST - QHSE

A SAFE, QUIET CAB

The ROPS cab provides you with a safe working environment. It also contributes to your comfort because it's attached to a reinforced frame with special viscous mounts that limit vibration and unnecessary sound. Add in special roof lining and sealing and you have a cab that's as quiet inside as any of today's top pickup trucks.

SECURE CONTACT POINTS

Multiple large steps get you into the cab as well as a leg up to the compartments. Extended hand and guard rails allow you to safely climb to the upper deck. Anti-skid plates reduce your slipping hazards in all types of weather conditions, and they can be removed for cleaning.

GREAT VIEWS

Ample glass gives you excellent visibility out front and to the side, and the standard rearview camera gives you a clear field of view behind the machine through the cab monitor. The available split-configuration windshield features an upper window with handles that make it easy to slide and store above you and a lower window that can be removed and stored on the inside wall of the cab. The large skylight also serves as an emergency exit and provides you with enhanced overhead visibility.

SMART LIGHTING

Halogen lights provide plenty of illumination, and the cab and boom lights can be programmed to stay on for up to 90 seconds after the engine has been turned off to help you safely exit the machine. Optional High Intensity Discharge (HID) lights are available for enhanced night-time visibility.

REQUIRE THIS MACHINE FOR YOUR PROJECT?

Please contact us for a competitive quotation or for further information about our customized solutions. Feel free to give us a call +31 251 26 44 44, send us an e-mail **info@vantunen.nl** or visit www.vantunen.nl

Experts in coastal development, earthmoving, rock works and mining

Van Tunen provides worldwide contract, rental and support services for the dredging, earthmoving and mining industry as well as the maritime sector. From harbour improvement and extension (including excavation and breakwater construction) to coastal protection, pipeline works and mining activities, depend on our team for solid advice, made-to-measure solutions and prompt support.
